

# W-CIRCLES

## W-CIRCLES

If tree trunks were libraries, each ring would be a page filled with stories, not just the silent marker of another year passing. On the edges of these circles, time rewrites itself every season, leaving clues for the inquisitive eye to decipher. The “W-Circles” collection isn’t just about reproducing the wooden matter but exploring the broader topic of its rings: symbols of perpetual growth, labyrinths of memories and meaning. Like an ancient text, the circles of the wood can be interpreted in different ways: as well as evoking the cyclicity of the natural world, they also bring to mind ancient legends and remind us that the past always leaves its traces in the present. A tribute not just to wood but to its infinite narrative, hidden like a precious story among the pages of its vein patterns and silences.

Available in three colours, the range includes the 10×10 size, the 5.3×30 brick and the two 10×120 and 20×120 planks, as well as the 60×120 3D Slats decor with slat motif.

The product is made by combining two different woods to create an articulated and complex composition in which the balance between the proportions and the visual fluidity is perfectly harmonious. The result is a material in which the cyclicity of the seasons becomes a style detail, transforming every setting into a homage to time and the beauty of nature.

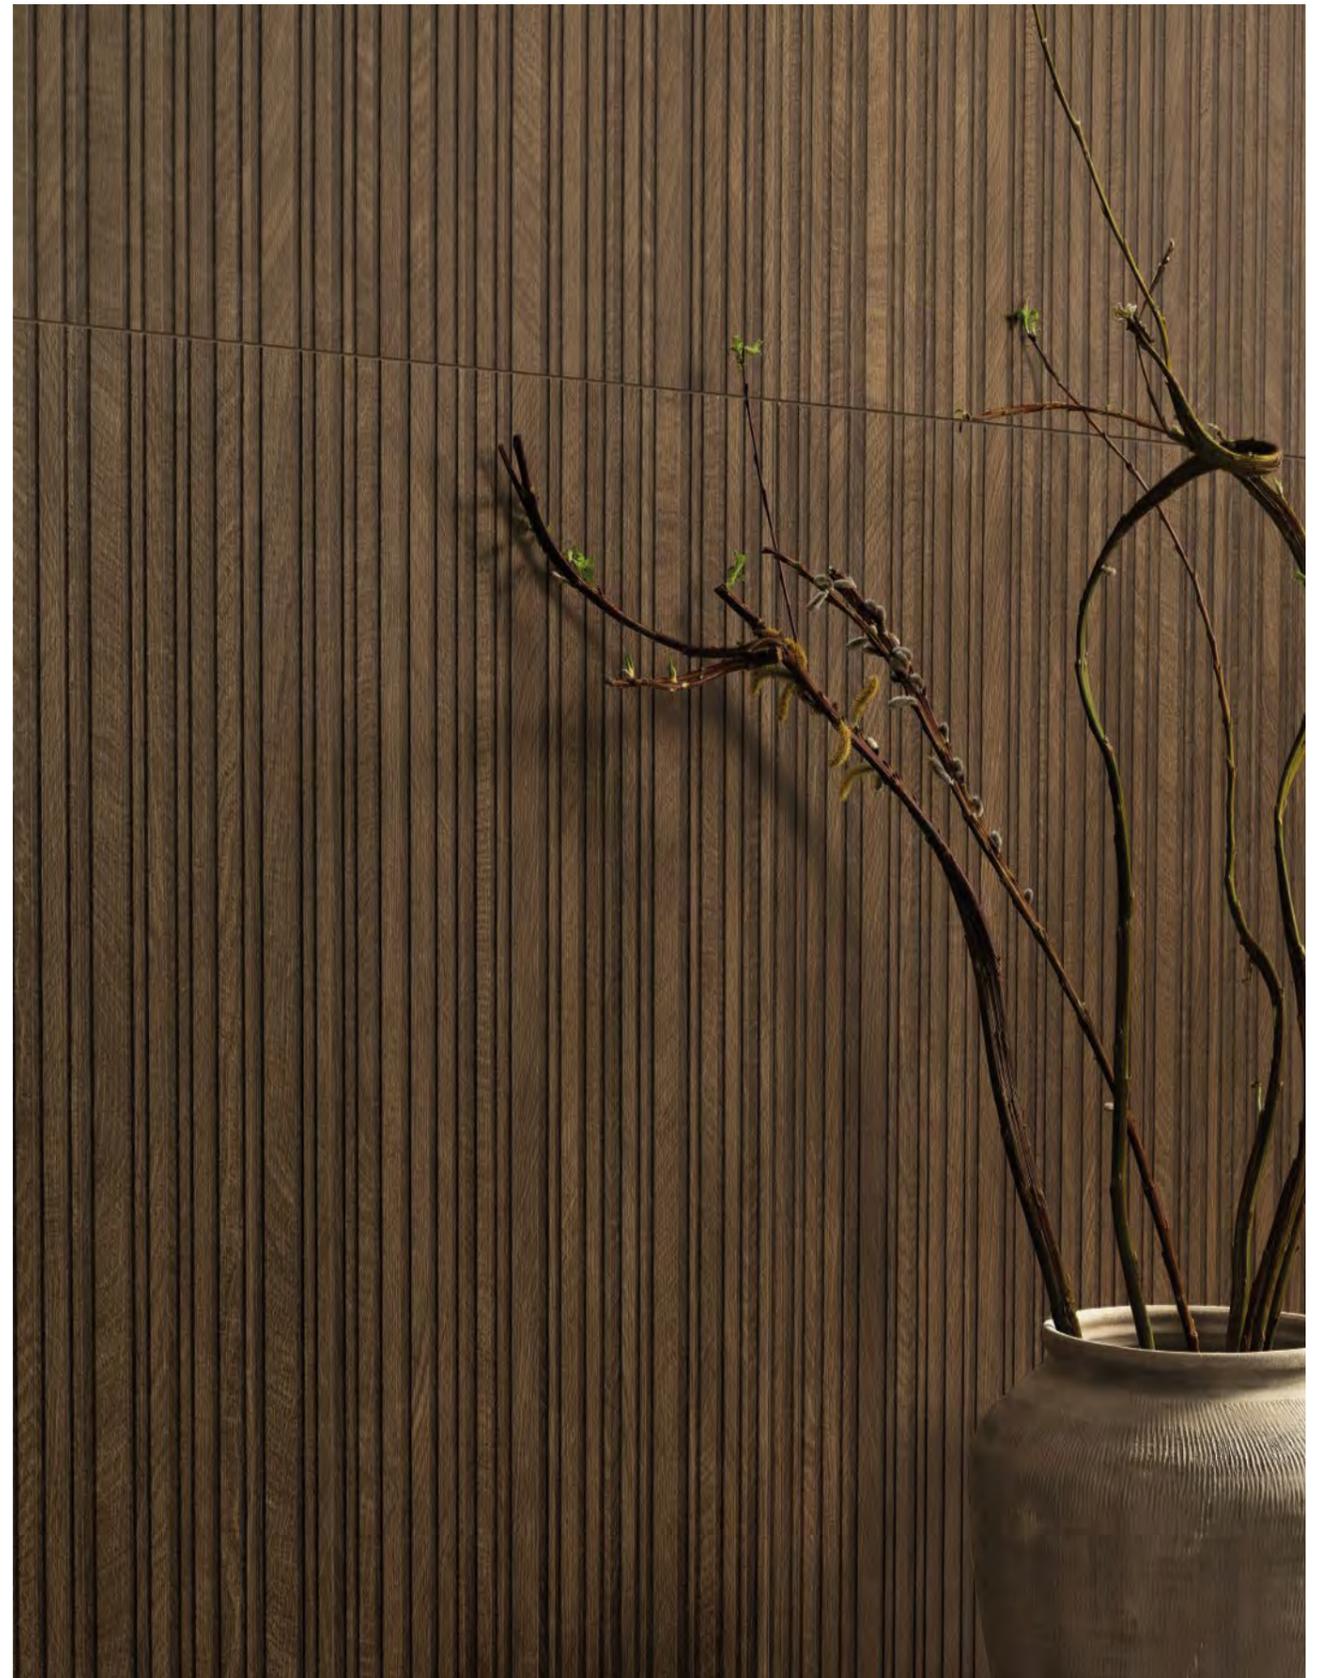

The collection is enriched with the Mosaico 5x5 and the Mosaico 3D Cube with wood-look three-dimensional tiles that bring extra dynamism to spaces.
